

# HIKING GROUP INSTRUCTIONS

To prep for your trip, please use these instructions and attached nametags to create your groups.

**NUMBER OF GROUPS:** During your phone call or classroom visit, your docent should have specified the number of groups you should create for your trip. We typically schedule enough docents for a ratio of 6 students:1 docent. *If you are visiting with another class from your school, please do not combine your classes into the same groups - keep them separate.*

**STUDENT LISTS FOR EMERGENCY CONTACT:** Complete this form by listing students and chaperones by their first and last names. Please cut the lists along the dotted lines - **you will give this form to the docent in charge when you arrive at the preserve.** *Adjust groups as needed before you arrive at the preserve.*

**SELECTING COLORS:** Each group should be assigned a color: Red, Orange, Yellow, Green, Blue, Purple or White. Utilize the colors in rainbow order. Once color groups are assigned, please make a nametag for each child, using the attached colored nametags.

**CHAPERONES:** Assign chaperones to specific color groups - make sure you use the chaperone specific nametag. Each group should have one chaperone. *If a student has a serious allergy or medical condition, they must hike with their teacher or own parent.*
